

Meet the Products (and Shows) Made in Mobile

The *Business View* editorial team dedicated this feature to a few of the many, many products made in Mobile. While not a comprehensive list, readers will get a glimpse of the final

products manufactured locally and other base ingredients produced locally and used in other products.

3 Echoes Production

This full-service video production company based in Mobile produces the syndicated TV show *Today's Homeowner with Danny Lipford*. Also, the team works with national, regional and local clients on commercials, broadcast specials, product views, client testimonials, documentaries and instructional and training videos. Its customers include Home Depot, American Standard and The Weather Channel.

Barnett Millworks

Barnett Millworks is the largest single-site millwork distributor in the Southeast. Investments in technology, new equipment and facilities have allowed Barnett to become high-tech and more innovative. Aside from the staples of doors, windows and mouldings, Barnett Millworks has branched out into more exotic products such as display props for photography companies and swimming pool frames.

BLP Mobile Paint

Started in Mobile in 1921, BLP Mobile Paint's authorized dealer program services Do It Yourself home centers, small hardware stores and independent paint dealers across the country with a complete line of architectural, commercial, industrial, elastomeric, floor, marine and specialty coatings, as well as more than 3,000 different sundry items.

Canfor Southern Pine

Canfor's U.S. headquarters is located in Mobile, and is a mill producing Southern yellow pine. This wood is used in general construction projects. Its density gives it exceptional strength properties, it's pressure treated and resistant to decay and termites, it's easy to work with and its distinctive wood-grain finish makes it a good product for decorative finishing. Just north of Mobile County, Canfor has another yellow pine mill located in Jackson. Both mills ship their products via truck, or they are put on rail cars for delivery outside Alabama and Georgia.

Evonik

Mobile is Evonik's flagship production facility for North America, and produces a number of ingredients that make life safer, healthier or more convenient. Examples include additives that make paper white, help animals get more nutritional value from what they eat, and make medicine easier to swallow. Evonik's Mobile site is also a leader in a product that strengthens the strings on a violin's bow.

Frios

Fruity or creamy, Frios makes more than 100 flavors of popsicles, as well as seasonal flavors like King Cake and Pumpkin Spice out of its Mobile headquarters. There are also no sugar added, gluten free, dye free, vegan, dairy free and more options to choose from. Among the best-sellers are strawberry mango, cookies and crème, birthday cake, pink lemonade and blue raspberry.

Kimberly-Clark

Kimberly-Clark makes Scott® and Cottonelle® bath tissue in Mobile. In addition, the local facility of this U.S.-based company produces a professional line of bath tissue, paper towels and wipes for commercial customers. With a recently completed expansion, Mobile also supplies its global customers with Kimtech® Science wipes, a low-lint wipe used for glasses, electronics and lab equipment.

Krispy Mixes

Over the last 30 years, Krispy Mixes has grown from a small warehouse operation to a multi-state distributor. Located in Theodore since 2011, the company blends breadings, coatings, spices, herbs, seasonings, gourmet gravies and sauces, pancakes, hush puppies and biscuits for Southern, Western and Cajun cuisines. Its products end up on your plate in restaurants throughout the nation.

Lenzing

With production sites around the globe, Lenzing Fibers Inc., has its only U.S. production site in north Mobile County. Here the company manufactures Tencel® fibers for the company's flagship brand for textiles. Used in a variety of highly-specialized applications, Tencel® fibers are used in clothing, bedding, footwear, denim and athletic wear.

Masland Carpets

Masland is a leading carpet manufacturer in the United States. The company's distribution center can store 20,000 rolls of carpet and the rug facility manufactures all rug designs ensuring quality control and production. Masland is recognized as the styling leader and producer of new original products that exemplify originality, innovative construction and color treatment as well as lasting beauty. Products include broadloom carpets, vinyl flooring, area rugs and commercial carpet.

Mobile Popcorn

For more than 57 Years, Mobile Popcorn has served Mobile and the Gulf Coast with a wide range of services and products from handmade caramel or candy apples and popcorn to concession equipment sales and rentals. The company specializes in making and selling popcorn in gourmet flavors, such as butter pecan, milk chocolate, white chocolate and white chocolate cherry.

PowerSchool

PowerSchool's mission is to power the education ecosystem with unified technology that helps educators and students realize their potential. From the front office to the classroom to the home, PowerSchool helps schools and districts efficiently manage instruction, learning,

grading, attendance, assessment, analytics, state reporting, special education, student registration, talent, finance and human resources. Today, PowerSchool is a leading provider of K-12 education application technology supporting over 45 million students in over 80 countries.

Prism Systems

Since 1989, Prism Systems has provided world-class systems design and integration services to companies and solutions targeted for industrial manufacturing markets. Utilizing the latest agile project management techniques, its programming and engineering specialists are able to produce, deploy and support the software businesses require to succeed. Prism Systems serves a global customer base including many Fortune 500 corporations.

Shore Acres Plant Farm

With over 50 acres, Shore Acres Plant Farm accommodates over 200 species of plants, including annual bedding plants, shrubs, trees, bushes, vegetables, seasonal and many other premium plants. Mobile's unique climate along with quality horticulture allows Shore Acres to harvest plants with the most vibrant colors, richest textures and robust flavors. The company provides wholesale service across the Southeast including Alabama, Georgia, Florida, Louisiana, Mississippi and Tennessee. The company was started in 1945 as a roadside plant stand, and is a third-generation family-owned business.

Spill Tech

Since 1971, SpillTech has manufactured and offered distributors high-performance polypropylene sorbent products for industrial maintenance and spill cleanup in Mobile. To help maintain a cleaner, safer workplace environment, SpillTech developed a complete line of high-tech sorbents for almost every leak and spill application with more than 350 products to choose from, including mats, pads, rolls, socks, pillows, pans, drum top pads, booms and spill kits. In addition to its sorbent line, the company offers a wide variety of spill containment products, including pallets, decks, blockers and funnels.

Tate & Lyle

Tate & Lyle is the sole manufacturer of SPLENDA® Sucralose at its facility in McIntosh. This popular low-calorie sweetener helps lower sugar and calories in a wide range of products, including drinks, dairy and confectionery products. The amount of SPLENDA® Sucralose that Tate & Lyle has produced, including locally, is enough to replace over 25 million tons of sugar.

Threaded Fasteners

While this locally headquartered company deals mostly with commercial and industrial clients, providing bolts for large-scale projects like the new Hancock Whitney Stadium at the University of South Alabama, Threaded Fasteners also sells to the general public. As both a manufacturer and distributor, the company can also help the general DIYer with projects ranging from repairing a lawnmower to building a deck.

Xanté

A leader in printing technologies, Xanté Corp. provides state-of-the-art tools for the high-end graphics and prepress markets. The company continues to invest in technology for the highest-quality printing by developing patented technologies in encrypted data transfer, electrophotography and image dimensional accuracy. The company recently acquired two companies, expanding its product line.
