FROM THE EDITOR:

A YEAR WE WON'T FORGET

Leigh Perry-Herndon

Remember the excitement of celebrating your child's first birthday? That's how we feel here at the Mobile Area Chamber after launching the new *Business View* one year ago. I have to think hard when remembering the trepidation our staff felt in advance of that issue hitting the street. Would our readers enjoy it? Would the photos stand out? How many advertisers would support us in the coming year?

We never could have imagined that a pandemic would threaten the magazine before it really got off the ground. (Thankfully, that didn't happen!)

I'm proud of our work this year, and everyone involved in the magazine has put in their fair share of sweat and tears

bringing it to your mailbox and inbox every month.

Our incredibly talented photographers have blown us away, as have our committed writing, editing, designing and printing teams. Publishing a magazine in today's market is no easy feat. If it weren't for our members who continue to financially support it by advertising, we would not be here today, ready to tackle some terrific topics in 2021. Please support our advertisers. Without them, the *Business View* would not exist.

On a separate note, it's soon time for all of us to reset and recharge. Have a blessed holiday season surrounded by those you love the most! We are excited about what's to come in 2021.

THREADED FASTENERS ANNOUNCES \$1.7M EXPANSION IN SEMMES

Less than two years ago, Threaded Fasteners put the finishing touches on a new galvanizing facility. Recently, company officials announced another expansion of the 41-year-old, Mobile-headquartered business.

Threaded Fasteners purchased 14.5 acres on a site adjacent to its manufacturing center in Semmes. Plans are to build a 30,000-square-foot building to house new specialized equipment, bringing the investment to \$1.7 million, and hire 15 additional employees.

The new facility will be used to fabricate, assemble and package the company's large anchor bolts, ranging from two feet to 20 feet in diameter, used by utility and construction companies to anchor highway directional signs, cell phone towers and commercial buildings.

Driving the company's expansion is the activity in the construction industry and repairs caused by numerous storms and hurricanes along the Gulf Coast.

"A long-standing corporate partner in our community, Threaded Fasteners continually reinvests in its operations and provides competitive wages to its employees," says **David Rodgers**, the Mobile Area Chamber's vice president of economic development.

Billy Duren, the company's president, says the continuous expansion and investment is all part of Envision 2030, a long-term plan written in 2016. "It is a roadmap for not only where we wanted to go but who we wanted to be as a company.

"We knew that expanding our manufacturing capabilities in large-scale production was the clear next step. Our mission is to create value in and for the people we serve. This expansion will allow us to expand our product offering and capacity, both nationally and internationally," Duren says.

Outside of Mobile, Threaded Fasteners has seven other U.S. offices in Florida, Mississippi, Oklahoma and Tennessee.

Threaded Fasteners announced a \$1.7 million expansion to build a facility to house fabrication, assembling and packaging of large anchor bolts such as these, pictured above.

CITY OF MOBILE HOUSING PLANS TO CREATE AND PRESERVE HOMES

In early November, City of Mobile Mayor **Sandy Stimpson** announced details of a plan to create or preserve 1,000 homes by 2026. Stimpson first unveiled the program during the Mobile Area Chamber's State of the City and County event earlier this year.

Through the \$15 million initiative, city officials have a goal to repair 550 owner-occupied homes, rehabilitate 100 blighted or abandoned homes, construct or rehabilitate 275 rental units, build 30 new single-family homes and assist 200 first-time home buyers with down payments.

According to Stimpson, the focus is east of I-65 and addresses blight and enhances affordable and workforce housing options in some of the city's oldest communities that have been historically underserved.

"It can be hard to fully convey the multifaceted problems caused by blight. An abandoned house is more than an eyesore. If left unchecked, blight can easily spread throughout a community. When you have a blighted neighborhood, it drives down property values and can lead to higher rates of crime. With fewer working families, there are fewer children, which can lead to school closures and consolidations," said Stimpson.

Funding comes from a variety of sources, including grants from the U.S. Department of Housing and Urban Development, public-private partnerships and \$300,000 from Mobile City Council President Levon Manzie's annual capital projects budget.

Led by the city's neighborhood development department, this new project expands on work already completed or in progress.

'The hope is to grow the population of the City of Mobile by improving our housing stock but also to reverse the trends and challenges that go along with blight.'

Sandy Stimpson,
Mayor, City of Mobile

"The hope is to grow the population of the City of Mobile by improving our housing stock but also to reverse the trends and challenges that go along with blight," said Stimpson.

JJPR TAKES NATIONAL WIN

Jennifer Jenkins, owner of JJPR, waited patiently with her husband, Jerry, and team members on a virtual announcement of U.S. Chamber award winners. Upon hearing JJPR was a winner, it took no time at all to pop some champagne and celebrate.

In mid-October, the U.S. Chamber of Commerce honored **JJPR Agency** with its Woman-Owned Business Achievement Award, recognizing the agency's growth and contributions to the economy.

The Daphne-based firm with 10 employees was the only Alabama company to make the top 24 list in the country and to be a winner of the U.S. Chamber's Dream Big Small Business program.

The Mobile Area Chamber nominated JJPR for the award.

Founder and President **Jennifer Jenkins**, who opened the agency as a sole practitioner in 2010, expressed appreciation for her staff. "They are JJPR," she said. "They are the reason I get up and do this every day."

Jenkins also gave credit to the Mobile Chamber. "They have been there to support us, to provide training, to provide networking and most of all, to be our biggest cheerleader," she said.

"We are so proud of Jennifer and JJPR," said **Danette Richards**, the Chamber's director of small business development. "This is the highest honor awarded by the U.S. Chamber to a Mobile-area company."

Each year, the U.S. Chamber names three finalists in eight different categories for its Small Business of the Year program: small business of the year; community support and leadership; emerging business achievement; green/sustainable business achievement; minority-owned business achievement; veteran-owned business achievement; woman-owned business achievement; and young entrepreneur achievement.

'We are so proud of Jennifer and JJPR. This is the highest honor awarded by the U.S. Chamber to a Mobile-area company.'

Danette Richards, director of small business development, Mobile Area Chamber

Mobile-headquartered **Hiller Companies** expanded its line of fire protection with the purchase of California-based A&D Fire Sprinklers in November.

A&D Fire Sprinklers has offices in San Diego and Los Angeles, Calif., Salt Lake City, Utah, and Spokane, Wash., and the purchase increases Hiller’s number of offices to 24.

OYSTER SHELL STRATEGY EVOLVES TO FULL-SERVICE MARKETING AGENCY

Shana Jordan is known for creating and managing signature events in Mobile including the Mobile International Festival, BayFest, Reese's Senior Bowl Summit and Fuse Project's Lip Sync Battle. As owner of **Oyster Shell Strategy**, she and her team have worked diligently to expand the business from just specialty events to all facets of brand management. The agency is the Mobile Area Chamber's Small Business of the Month.

"We achieve success by combining a wide variety of expertise including public relations, fundraising, event planning and productions, corporate social responsibility and more," says Jordan.

An active Chamber member, Jordan says networking events provide Oyster Shell Strategy a platform to foster new

relationships with like-minded and diverse business executives and enable her to meet face-to-face with Chamber board members. She credits Chamber board member Melissa Cross, president of McAleer's Office Furniture, for getting her more involved.

Since opening in 2018, the agency rapidly grew from a one-person business to a team of five. Clients have included DocRx, Fuse Project, Braided River Brewing, Autism2Ability, Reese's Senior Bowl and Mobile Area Water and Sewer System. The agency offers content writing, social media, partnership development, public relations support and overall brand development.

Over the past seven months, as in-person events came to a halt, the team worked to refine the agency's brand and focus on new business development.

"We like working with young companies to help them grow their brand," Jordan says. In addition, the agency has been working with several local companies as an in-house marketing manager.

"We can show companies the value of having our five-person team working on all facets of marketing, rather than them hiring one person at the same rate," Jordan says. "Everything we do with a client is a collaborative effort."

Jordan also credits business coaches and mentors who constantly challenge and inspire her. "Everything it takes to run a business is overwhelming," she says. "My mentors are helping me plan for short- and long-term growth. They are always coming up with new tools and tasks to challenge me, and every day I am becoming a better business owner."

But what she's not willing to give up is time with her clients. "I have found joy in grassroots marketing efforts," she says.

MANUFACTURER OF THE YEAR: AM/NS CALVERT

The latest investment at AM/NS Calvert not only secured the site's 1,500-plus jobs, it is creating nearly 200 new ones.

In August, the company announced it would spend \$647 million to produce steel slabs currently made in Brazil at the Calvert mill.

AM/NS Calvert will be recognized at the Mobile Area Chamber's State of the Economy as the 2020 Manufacturer of the Year on Dec. 16.

"Being recognized as Manufacturer of the Year is meaningful to our team at AM/NS Calvert, especially as this has been a challenging year for our organization as we navigated the impacts of COVID-19," said **Jorge Luiz Riberio De Oliveira**, company president and CEO. "We are looking forward to the upcoming year as we work toward having an on-site steelmaking facility, which will provide short lead-time flexibility and, combined with our existing world class facilities, will give AM/NS Calvert a decisive competitive advantage."

"AM/NS Calvert has been one of the top corporate citizens in our region for years," says **David Rodgers**, the Chamber's vice president of economic development. "Since the company began operations, it has continued to employ more than 1,500 employees and makes significant annual investments in nonprofit organizations."

Construction is scheduled to begin in December on the company's nearly 2 million-square-foot manufacturing, office and warehouse addition with a completion date of December 2022.

A joint venture of work between ArcelorMittal and Nippon Steel Corp., the steel processing plant is recognized as one of the most advanced steel finishing facilities in the world. The facility has a portfolio of steel grades and serves the automotive, construction, pipe and tube, service center and appliance/HVAC industries.

INNOVATOR OF THE YEAR: AIRBUS

During the initial surge of the COVID-19 pandemic, the Mobile Area Chamber initiated weekly calls with area manufacturers and the University of South Alabama.

As shortages of personal protective equipment (PPE) became critical for local health care workers, Airbus stepped up and shifted operations to help.

Using 3D printers, the Airbus production and engineering teams produced more than 500 reusable and washable face masks and hundreds of tension-relief straps for medical personnel. In addition, the company donated 40,000 masks from its own inventory to Mobile and Baldwin County emergency workers.

"This has been a challenging year for everyone due to the health and economic impacts of COVID-19. It's an honor for the Airbus engineering and manufacturing teams in Mobile to be recognized for our role in supporting the community and the true heroes of this fight – our front-line health workers! This was a collective endeavor with other Mobile industrial partners, and I would like to thank Austal USA, AM/NS Calvert and Evonik for their leadership and collaboration on this project," said **Daryl Taylor**, head of commercial manufacturing for Airbus.

"While several other manufacturers also jumped in to contribute to the local effort, Airbus led the charge," says **David Rodgers**, the Chamber's vice president of economic development.

For their work on this, Airbus will be recognized at the Mobile Area Chamber's State of the Economy on Dec. 16, as the 2020 Innovator of the Year.

2021 GUIDE TO MOBILE

Mobile is a great place to live, play, raise a family and grow a business. Founded in 1702, this port city is one of America's oldest. Known for its Southern hospitality, rich traditions and an enthusiastic spirit of fun and celebration, Mobile offers an unmatched quality of life. Our streets are lined with massive live oaks, colorful azaleas and historic neighborhoods. A vibrant downtown and quality healthcare and education are just some of the things that make our city so livable. Located at the mouth of the Mobile River at Mobile Bay, leading to the Gulf of Mexico, Mobile is only 30 minutes from the sandy white beaches of Dauphin Island, yet the mountains of northern Alabama are only a few hours away. Our diverse city offers an endless array of fun and enriching activities – from the Alabama Deep Sea Fishing Rodeo to freshwater fishing, museums to the modern IMAX Dome Theater, tee time on the course to tea time at a historic antebellum home. Then there's the world-renowned Bellingrath Gardens, Battleship USS ALABAMA, Dauphin Island Sailboat Regatta, Mardi Gras and the Christmas parade of boats along Dog River. EASY ACCESS TO NORTH AMERICA AND WORLD MARKETS

By land, by air or by sea – you can get here from anywhere.

Mobile is the largest Gulf Coast city between New Orleans and Tampa. A few interesting notes about our water economy: the Mobile-Tensaw River Delta is the second largest in the U.S.; Mobile Bay is the fourth largest estuary in the nation; and Mobile Bay holds the second largest natural gas reserve in the world.

In addition to a deepwater port, Mobile has two major interstate connectors, five Class I railroad service providers and two airports.

Port of Mobile

Over the past decade, the **Alabama State Port Authority** has invested more than \$700 million at the Port of Mobile, including a container terminal, a steel terminal, expansion at McDuffie Coal Terminal, a rail ferry terminal, new warehouses and a turning basin. The 45-foot ship channel with its 1,000-foot turning basin is only three hours from deepwater. Plans are underway to deepen it by 20 to 50 feet **APM Terminal - Mobile**, a state-of-the-art marine terminal, is Post-Panamax and Super Post-Panamax capable and offers global access to shippers. Weekly container carrier services shipping to destinations worldwide include China Shipping Container Lines (CSCL), CMA CGM, Cosco Shipping, Maersk, Mediterranean Shipping Co. Alabama Cruise Terminal

The **Alabama Cruise Terminal** features a 66,000-square-foot terminal, state-of-the-art security and an attached 500-space parking deck with easy access to interstates 10 and 65. Carnival recently announced the terminal will be the home port for its *Sensation*.

Mobile is served by five national Class I railroads: CSX, Canadian National, Alabama Gulf Coast Railroad - BNSF, Norfolk Southern and Kansas City Southern with piggyback and containerized freight service.

Highway System

Mobile's highway system includes two major interstates and five federal highways. Interstate 10, the southernmost coast-to-coast interstate highway in the U.S. connects Jacksonville to Los Angeles. Interstate 65, a major north-south route, links the Great Lakes to the Gulf Coast. The area's federal highways are U.S. 31, 43, 45, 90 and 98.

IN A CITY BORN
TO CELEBRATE
GOOD TIMES
ARE EASY
TO FIND

In a city born to celebrate, there's never a shortage of entertainment options. It stands to reason that the city known for bringing Mardi Gras to America would know a thing or two about having a good time.

The list of live music venues is growing throughout the Mobile area, but downtown Mobile serves as the city's entertainment center – with a lively mix of restaurants, nightclubs, bars, galleries and theaters.

Dauphin Street and the historic **Saenger Theatre** anchor the district known as LoDa, for Lower Dauphin Street. The renovated Saenger attracts major national touring acts, including Wynton Marsalis, Jason Isbell, Alabama Shakes, Buddy Guy and Travis Tritt, and is home to the **Mobile Symphony**. Local clubs feature live music every night of the week.

A wide variety of restaurants – from elegant to casual – are popular meeting places for dinner before heading off for an evening of entertainment, music and fun.

Mobile recently joined many other cities with lively downtown entertainment scenes in creating designated entertainment districts, allowing people to mingle freely and carry beverages between establishments.

Other festivals such as **LoDa ArtWalk** bring crowds of people to downtown streets to sample what the city has to offer.

But nothing tops the excitement of Mardi Gras season, when crowds fill downtown for three weeks of parades. French soldiers and settlers first celebrated Mardi Gras in Mobile in 1703, and we've been perfecting the party ever since.

SEAFOOD AND FARM-FRESH PRODUCE SEASON OUR SOUTHERN COOKING

Food is what brings Mobile's diverse culture together. A strong sense of community is built by bringing folks together for a good time over exceptional food and drinks. There's always a pot of gumbo simmering on a stove somewhere, and a great meal is easy to find.

When visitors to Mobile think of local food, they automatically think of seafood.

But locals know our tables are famous for a lot more than some of the world's best shrimp and oysters. Mobile also takes great pride in a rich variety of Southern produce grown by local farmers. Farmers markets, vegetable and fruit stands and curb markets make it easy and affordable to enjoy local produce.

Surrounded by fertile farmland in both Mobile and Baldwin counties and blessed with a long growing season, Mobile enjoys a long list of homegrown treats. Summers are filled with vine-ripe tomatoes, strawberries, watermelons, field peas, cantaloupes, okra, butter beans, peaches, squash and the royalty of local produce – Silver Queen corn. Cooler weather brings turnips, collards, pecans, persimmons and citrus crops, such as satsumas and lemons.

Mobile's growing restaurant scene includes classic seafood spots, farm-to-table restaurants and a wide variety of international and ethnic cuisine.
